REMARKS

Claims 1 and 3-23 are all the claims presently pending in the application. Claim 1 has been amended to correct an inadvertent error. Claims 1, 8, and 16 are independent.

These amendments are made only to more particularly point out the invention for the Examiner and not for narrowing the scope of the claims or for any reason related to a statutory requirement for patentability.

Applicant also notes that, notwithstanding any claim amendments herein or later during prosecution, Applicant's intent is to encompass equivalents of all claim elements. requisite need for high precision positioning, which requires the use of an expensive flip-chip bonding machine.

In view of the foregoing amendments and remarks, Applicant respectfully submits that claims 1 and 3-23, all the claims presently pending in the Application, are patentably distinct over the prior art of record and are in condition for allowance. The Examiner is respectfully requested to pass the above application to issue at the earliest possible time.

Should the Examiner find the Application to be other than in condition for allowance, the Examiner is requested to contact the undersigned at the local telephone number listed below to discuss any other changes deemed necessary in a telephonic or personal interview.
